

ATOMOS FIRMWARE UPGRADE

NINJA INFERNO 8.5 RELEASE NOTES

New Function:

- ✓ Enhanced focus peak options
- ✓ HLG support for Panasonic GH5
- ✓ Added the option to pause video during slow motion playback

Fixes:

- 25% improvement in record \leftarrow – \rightarrow playback transition time
- Fixed occasional Record to Play mode switching issues
- Loop out during playback of 4kDCI p60 is now configured to 4kDCI p60 rather than 4kDCI p30.
